2023	370,239	-3.3%
2024	375,161	1.3%

Membership numbers are reported by the union on their annual financial report. The following pages present a history of NLRB petition/election statistics and work stoppage statistics—from the Bloomberg BNA Elections and Work Stoppages databases respectively—for UAW from January 2015 through December 2024. Bloomberg BNA collects petition/election information from the National Labor Relations Board's headquarters and 26 regional offices. Work stoppage data is compiled using published sources only, including newspapers, union publications, Bloomberg BNA labor publications, and government reports.
